Steps of Region Loss

1. **Tarnish the Commander's Name.** The Commander returns half (rounding up) of their trophies and is removed.
2. **Officer Rout.** Roll a die for every officer in the Army and remove it if the roll is a 6.
3. **Governor Elimination.** Remove the Governor and its office card.
4. **Restore Local Authority.** Remove any Company pieces in the region (including unrest). Place a dome back in the region with one tower level. Place the region's control token back in its region. **Close every open order in the region. If all are already closed, resolve a Cascade.**
5. **Company Humiliation.** Lower the Company's Standing by one to the left for each region lost this turn (including this region).

Dividing Loot

First, take cash from the bank equal to value on loot token + £4 for each tower level. Then, starting with the Commander and going clockwise players take:

- ☛ £1 if they are Commander.
- ☛ £1 for each officer used.

After going around, pay £1 for each regiment and local alliance to bank. Then repeat if loot remains.

Easy to Miss Rules

Minimum loot is equal to officers +1.

Commanders gain a trophy when they successfully defend against Rebellion or Invasion.

If the Commander is vacant during Events, Military Affairs acts instead but does not gain trophies.
